

SaturnusGo — One App Every Journey.

Rides, places, hotels, events — all in one Superapp.

By Sieger

Vision:

- ◆ Movement should be simple, elegant, and borderless.
- ◆ **SaturnusGo** = lifestyle superapp for the next **100M** travelers.

What's broken today:

3–5 separate apps just to move, book, pay, and plan.

No smart weekend/trip planning.

Payments fail in emerging markets.

No loyalty, no financial visibility, no trust.

Our Solution — one seamless app:

Rides with accurate ETAs

Hotels & weekend bookings

Events & tickets

SaturnusGo

Places Hub — save,
share & plan trips around
favorite spots (B2B2C layer)

Wallet + P2P transfers

Subscriptions + loyalty

AI-powered planning
& recommendations

Market Size:

TAM (global mobility + travel):
\$1.7 trillion (2033)

SAM (LATAM mobility):
\$1.9B → \$6.8B ~ CAGR ~15%

SOM (Year 3):
Target penetration: 2.5M users (~0.5% of LATAM
smartphone users)
ARPU ~\$75/year → ~\$187M ARR

- ◆ **Wedge:** LATAM (underserved, fragmented, weak incumbents).
Next: UAE → EU - local source

How we make money:

15–17%

commission on rides

12%

margin on hotel bookings

90%

margin on subscriptions ~
Base | Standard | Pro | Flex

B2B promotions

(listings, partners, events
Places Hub deals)

- **Unfair Advantage:**

- × **Uber** → rides only, no planning/loyalty.
- × **Bolt** → fragmented, EU-only.
- × **Booking** → hotels only.
- × **InDrive** → chaotic, no trust.

- **Why we win:**

SaturnusGo → unified ecosystem:
rides + hotels + events + places hub
+ wallet

- + Native rails for emerging markets (PIX/SPEI/QR), cash-friendly wallet
- + AI weekend & lifestyle planning
- + Places Hub (B2B2C) — saved spots, discovery, local monetization
- + Subscription-first ecosystem

Launch Plan:

Already built:

Full-stack MVP live: rides, hotels, wallet, loyalty, places hub, transfers, AI-routing.

Live Demo Available

Ready for controlled public beta.

Team ⚡

Mercury Rucks —
Founder & CEO/CTO

- Defines company vision and product strategy.
- Leads product development end-to-end: backend, frontend, mobile, infra.
- Oversees platform architecture, integrations, and AI/fintech innovations.
- Deep understanding of mobility, travel, and fintech user needs.
- Drives strategic partnerships to expand product ecosystem.
- Manages operations and fundraising, building the company for scale

Husenov Nekruz
Co-founder & Chief
Financial Officer

- Designs and executes go-to-market strategy
- Drives user acquisition & growth, optimizing CAC/LTV.
- Builds partnerships with hotels, airports, and local services.
- Manages marketing analytics and performance tracking.

Raising \$500K–700K (pre-seed, pre-launch) to:

Milestones (12 months):

We're building mobility infrastructure for the next 100M travelers.

Let's talk.
